As cited in Scott Snyder, op. The challenge is clear: "North Korea will remain a serious challenge to regional stability as long as the Stalinist regime endures - and we cannot yet predict its downfall.

Cultivable land covers only approximately 20 percent of total land mass. He is also the author of a number of monographs, book chapters, and articles on East Asian security, arms control, and nuclear strategy. High-value North Korean steps would involve the verified dismantlement and removal of all fissile materials and production programs, nuclear weapons, and nuclear weaponization programs.

It is with this background that this paper traces the current North Korean nuclear urgent is an agreement on a comprehensive denuclearization-peace road map. Carnegie Endowment for International Peace.
