Smith's economics was carried into practice in the nineteenth century with the lowering of tariffs in the 1840s, the repeal of the Poor Relief Act that had restricted the mobility of labour in and the end of the rule of the East India Company over India. In Locke often says that the power of the government is to be used for the protection of the rights of its own citizens, not for the rights of all people everywhere. Two Treatises 1. George Eliot.

James Markeditasto-read Jun 08, John Locke. Brian Tienrey questions whether one needs to prioritize natural law or natural right since both typically function as corollaries. These elements became associated with conservatism. The emphasis on deterrence, public safety, and restitution in punishments administered by the government mirrors this emphasis.

In the century before Locke, the language of natural rights also gained prominence.
