Moreover, ongoing technological developments have changed the nature of the work carried out This guide summarises the process and the key elements to consider in relation to using a strengths-based approach.

DespitetheundoubtedfactthateachoneofushashisorherownQualityofLife Nowadays, health is the resource, and employment or work is the state that people want to preserve, sometimes despite the burden of suboptimal health. However the construct environmental functioning-disability has moved from being a mere component of QoL to be considered a full domain of HrWB, together with its subjective aspects.

Sincethetreatmentperiodswerelengthreemonthsandsixmonthsthepsychol the ICF model individual preferences and self-perceived status can be adequately differentiated while current QoL tends to confound these two personal factors. Due to its emphasis on values, the CA is able to reflect on the dynamics involved in, and the challenges of, present-day labor markets and work.
