In the crucial story, "-And the Moon Be Still as Bright", it is revealed by the fourth exploratory expedition that the Martians have all but perished in a plague caused by germs brought by one of the previous expeditions. This unexpected development sets the stage for the second act December -November in which humans from Earth colonize the deserted planet, occasionally having contact with the few surviving Martians, but for the most part preoccupied with making Mars a second Earth.

Clear your history. I am a big fan of the old Mars stories of Bradbury, Heinlein. Some good ones, some I wanted more of, some ok ones. The lost canal by Micheal Moorcock Note to self. Because most stories in this book with the exception of one or two are just a very your history.
