The discipline was established in the early s by Austrian neurologist Sigmund Freud and stemmed partly from the clinical work of Josef Breuer and. This is a study of the nature of the process whereby children go about the business of learning to read. It includes many of the papers given at the Tavistock Centre in London to celebrate Meltzer's 75th Birthday. MostwidelyheldworksaboutDonaldMeltzer. Section I provides a vivid reference to the transactions of the consulting room and playroom in order to evoke in the reader the experience of being both a patient and analyst. The first fourteen awards were created in as an informal poll between Meltzer and his friends and others he corresponded with on the subject of professional wrestling at the time.
