Port vs. Starboard - What's the Difference? - Writing Explained

Murdoch's "hard a-starboard" order in response to the iceberg has become so ingrained into the traditional Titanic story that it has never been questioned.

Hard to Starboard (song) | James Cameron's Titanic Wiki | FANDOM powered by Wikia

Fourth Officer Boxhall soon after the disaster. Boxhall: "I heard the First Officer give the order 'Hard-a-starboard,' and I heard the engine-room telegraph bells.

Tureng - hard a starboard - Turkish English Dictionary

When First Officer William Murdoch spotted the iceberg two miles away, his "hard a-starboard" order was misinterpreted by the Quartermaster.

How Does A Rudder Help In Turning A Ship?

Hard-a-starboard was the only helm order given on Titanic to avoid the iceberg - true or false? Historian and researcher Tim Maltin investigates.

Titanic Mistake

From the far North West we are propelled to the South East to view the good ship SS Fastnet. Mr Poole was a great man for photographing sea.

Murdoch closing them [watertight doors] then, pulling the lever Had to steer about 20 miles south to clear it. It was crazy. Captain Smith: What have we struck? The helm is hard over, sir. It would look better for the White Star Line if their officer had given a hard over command in response to the iceberg instead of steadying his course directly at it. In other words, this force Hard to Starboard cause the ship to attain a sway velocity towards the port side, because the rudder force is nothing but a sway force towards the port . Goodreads helps you keep track of books you want to read. You must understand, unless you know what you Hard to Starboard looking for, if you see some very dim indistinct shape of some kind, anyone could take that as nothing at all - merely some shadow upon the water, or something of that kind; but people with experience of ice know what to look for, and can at once distinguish that it is a separate object on the water, and it must be only one thing, and that is ice.
